Multiplier Event 3D-ReMath

International conference

“Overcoming mathematics learning difficulties
using technology and ecology”

30/09/2021

in the framework of the Erasmus+ Project:

“3D Printing technology aims students at better understanding
Maths and recycling procedure” (3D-ReMath)

The International Conference “Overcoming learning difficulties using technology and ecology” -a Multiplier Event of the 3D-ReMath project- will be delivered on **30 September 2021**, in a hybrid event format, combining physical and virtual presence.

The conference is addressed to students, teachers, parents and guardians, researchers, academics as well as the general public.

Its goal is to describe the educational activities developed in the context of the 3D-ReMath project, to discuss the project’s results, to document the effectiveness of transnational cooperation as well as the project’s direct and indirect effects to the local communities. Furthermore, the conference will provide a virtual floor to researchers, academics, students and other professionals to present their research work concerning Science, Technology, Engineering, Art and Mathematics with special focus on the implementation of 3D printing on educational programs.

More information about the Project can be found both on the website <http://3dremath.aegean.gr/> and on social media.

The venues where the conference will take place simultaneously in the 3 countries are the following:

- University of the Aegean, Gianni Karali Amphitheater, 8 Michalon Street, P.S. 82100 Chios Island (Greece)
